

## A Box with Four Extra Cartridges

Suites anyone who needs help with organizing the pills or for those who love to be ready.

A box for organizing and storing including 4 cartridges for a convenient filling and preparing in advance.

### Guide

A place for personal name label

Pills filling cartridges according to color

Behind any cartridge, there is an arrow that points the direction to insert the cartridges into the distributor

Mark of the time of taking:

A and a sticking out dot - Morning \ Green  
 B and two sticking out dots - Yellow \ Afternoon  
 C and three sticking out dots - Pale Blue \ Evening  
 D and four sticking out dots - Grey \ Night

### Safety Instructions

- Keep in a shady and cool place
- Clean with damp cloth, without alcohol!
- For use from the age of 16 and above
- The cartridges can be washed with water \ dishwasher and be well dried. Make sure the cartridges are clean and dry before use
- Place the vitamins \ pills into the cartridges according to the right color of the time of taking.
- In case the pills are not allowed to be extracted from their original package, you can cut around the pill and place it inside its designated cell in its original package.
- When transferring the cartridges to the Dispenser, keep an eye on inserting the cartridges to their right place according to the color on the Dispenser.
- **The user is responsible for the order of the pills and the right use of the Box with Four Extra Cartridges - extracting and inserting \ use of the right pills at the right time.**

### Labels for the time of taking and names list

For your convenience, we have added username labels, for identification in the family when there is more than one user. You can write your name and paste it in the designated place.

\* The instructions are written in a male voice but they address men and women as one.
